## REPORT OF INDEPENDENT AUDITORS

To the Benefits Committee and Investment Committee of the  
Celanese Americas Retirement Pension Plan

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Celanese Americas Retirement Pension Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C) (“ERISA Section 103(a)(3)(C) audit”). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of January 1, 2024, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (“investment information”) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institution”).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor’s Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Other Matter - Supplemental Schedules Required by ERISA**

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year), Schedule H, Line 4i – Schedule of Assets (Acquired and Disposed of Within Year), and Schedule H, Line 4j – Schedules of Reportable Transactions as of or for the year ended December 31, 2024, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**CELANESE AMERICAS RETIREMENT PENSION PLAN  
NOTES TO THE FINANCIAL STATEMENTS**

**1. Description of the Plan**

The Celanese Americas Retirement Pension Plan (the "Plan") is a defined benefit pension plan sponsored by Celanese Americas LLC (the "Company"), an indirect, wholly owned subsidiary of Celanese Corporation. The Plan covers certain employees of the Company and its U.S. subsidiaries ("Participants"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Participants in the Plan should refer to the Plan document for more complete details of the Plan's provisions.

Non-Union employees hired before January 1, 2001, with five or more years of service, as defined, are entitled to annual pension benefits beginning at normal retirement age (65) equal to the greater of (a) 1.33% of the employee's final average earnings multiplied by the employee's years of credited service, or (b) 1.67% of the employee's final average earnings multiplied by the employee's years of credited service minus 50% of the employee's Social Security benefit multiplied by a fraction, the numerator of which is the employee's years of credited service (to a maximum of 35 years) and the denominator of which is 35. The Plan permits early retirement between ages 55 to 64. A Participant would be entitled to an unreduced early retirement benefit if they are at least age 55 and stop working when the sum of their age and years of vesting service or credited service (whichever is greater) equals at least 85 or they are at least age 60 and have at least 15 years of vesting or credited service when they stop working. Otherwise, a Participant is entitled to an early retirement benefit reduced 4% by each year that early retirement precedes the date the employee would be eligible for unreduced early retirement benefits. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity or certain and continuous annuity. Employees who terminate before becoming vested forfeit their benefits. Forfeitures are fully retained by the Plan and are used to reduce the Company's contributions to the Plan. If a married employee dies after being fully vested in the Plan, a death benefit will be payable to the surviving spouse.

In 2001, the Plan began providing benefits for new employees, as defined by the Plan, hired after December 31, 2000 based upon a different benefit formula ("Cash Balance Plan"). The Cash Balance Plan provides that for each Plan year an employee works, as defined, the Company credits 5% of the employee's annual pensionable earnings, as defined, to a hypothetical Plan account that has been established for each employee, and credits that account with interest. For a given year, the Plan's interest rate is the annual rate of interest on 30-year Treasury securities as of August of the year prior to the first day of the Plan year. The Plan's interest rate was 4.28% and 3.13% for the years ended December 31, 2024 and December 31, 2023, respectively. An employee's account balance grows with annual pay credits while employed and annual interest credits. Employees are vested after completing three years of employment with the Company, as defined. If employees are vested when they leave the Company, they have the option to take their account balance with them, either in a lump-sum payment or as an annuity. Once vested, survivor benefits are applicable to married participants. Employees also have the choice to leave their account balance in the Plan until the normal retirement age of 65.

Hourly (union and non-union) employees at select facilities, with five or more years of service, are entitled to 'dollar per month' type pension benefits ("Flat Rate Plan"), credited through the date of termination and payable beginning at the normal retirement age of 65. The monthly amounts range from \$37 to \$51 per month, depending on the employee's termination date. Effective May 1, 2011, all union employees hired after April 30, 2011 are not eligible for the Flat Rate Plan. However, they are eligible to participate in the Cash Balance Plan described above.

During 2013 and 2014, the Plan was amended and benefits offered to all union and non-union Participants were frozen, and the Plan was closed to new participants. Accumulated benefits earned and service rendered under the Plan provisions for all Participants will continue to be considered for purposes of determining retirement benefits and eligibility for early retirement.

In February 2021, the Plan sponsor received written notification from the Department of Labor (the "DOL") that the DOL would be conducting an investigation of the Plan. The DOL concluded its investigation of the Plan in September 2024. No violations of ERISA were asserted.

The Company's Benefits Committee ("Plan Administrator") oversees the administration of the Plan, and the Plan's Investment Committee ("Investment Committee") has the discretionary authority to appoint agents to direct the purchase and sale of investments in the Plan. The Company's sole member has appointed the Plan Administrator and the Investment Committee as the named fiduciaries of the Plan.

## **2. Summary of Significant Accounting Policies**

### ***Basis of Accounting***

The accompanying financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America ("U.S. GAAP") for all periods presented.

### ***Trust Agreement***

The Company has a trust agreement with State Street Bank and Trust Company ("Trustee"). The agreement with the Trustee establishes a qualified trust ("Trust") for the Plan.

### ***Fair Value Measurements***

The equity and debt securities objectives are to provide diversified exposure across the U.S. and global equity and fixed income markets, and to manage the risks and returns of the Plan through the use of a fund of fund manager, comprised of multiple managers and strategies. The fixed income strategy is designed to reduce liability-related interest rate risk by investing in bonds that match the duration of the Plan liabilities. Derivatives-based strategies may be used to improve the effectiveness of the hedges.

The Company determines fair value based on the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Company considers assumptions that market participants would use when pricing the asset or liability. Market participant assumptions are categorized by a three-tiered fair value hierarchy which prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. If a financial instrument uses inputs that fall in different levels of the hierarchy, the instrument will be categorized based upon the lowest level of input that is significant to the fair value calculation. Valuations for fund investments such as common/collective trusts, registered investment companies and short-term investment funds, which do not have readily determinable fair values, are typically estimated using a net asset value ("NAV") provided by a third party as a practical expedient.

The levels of inputs used to measure fair value are as follows:

Level 1 - unadjusted quoted prices for identical assets or liabilities in active markets accessible by the Company

Level 2 - inputs that are observable in the marketplace other than those inputs classified as Level 1

Level 3 - inputs that are unobservable in the marketplace and significant to the valuation

### ***Investment Valuation and Income Recognition***

The assets of the Trust are primarily comprised of investments in equity and fixed income securities and are managed by various investment managers appointed by the Investment Committee. Investments are stated at quoted market prices or estimated fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The Trustee uses a third party pricing vendor to provide quoted market values for the Plan's individual marketable securities held by the Trust. Certain Plan investments participate in commingled or pooled funds. Accordingly, the Trustee uses valuations provided by the investment manager/general partner of such funds and reports these at estimated fair values.

### ***Financial Instruments***

In accordance with the investing strategy of the Plan's managed accounts, the Plan's investment managers may execute transactions in various financial instruments that could give rise to varying degrees of off-balance sheet market and credit risk. These instruments can be settled on an exchange or negotiated in the over-the-counter market. These financial instruments primarily include swaps, options, forwards and futures contracts.

Market risk arises from the potential changes in value of financial instruments resulting from fluctuations in interest rates and foreign exchange rates and in prices of debt and equity securities. The gross notional (or contractual) amounts used to express

## [Table of Contents](#)

the volume of these financial instrument transactions do not necessarily represent the amounts potentially subject to market risk. In many cases, these financial instruments serve to reduce, rather than increase, the Plan's exposure to losses from market or other risks. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are identified. The Plan's investment managers generally limit the Plan's risk by holding or purchasing offsetting positions. Counterparty risk can be reduced by use of master agreements. Master agreements reduce counterparty risk by specifying credit protection mechanisms and providing standardization that improves legal certainty, thereby reducing the probability of unforeseen losses. Credit protection takes the form of mutual termination language.

The Plan's investment managers invest in derivative financial instruments within the Plan to extend fixed income duration and to reduce the effect of interest rate volatility on pension liabilities. These derivative financial instruments may include exchange traded financial futures contracts, interest rate swaps, options and mortgage-backed to-be-announced securities. The Plan records the mark-to-market of these off-balance sheet transactions as of the balance sheet date as either an asset or a liability and recognizes either a gain or a loss related to these transactions as of the reporting dates. The market risk is the potential change in the value of the financial instrument caused by unfavorable changes in interest rates, currency exchange rates or the market values of the securities underlying the instruments. The Plan's investment managers monitor exposure to market risk through a variety of control procedures, including daily review of trading positions.

### ***Actuarial Present Value of Accumulated Plan Benefits***

Accumulated plan benefits represent the actuarially determined value of pension benefits that have been earned by Participants, based on each Participant's pensionable earnings, service and age as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of retired employees who have died and (c) present employees or their beneficiaries. The benefits for active employees are based upon the pension benefit calculations as outlined in the Plan document as of the date on which the benefit information is presented (the valuation date). Benefits payable under all circumstances (e.g. retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is the amount resulting from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, termination or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits was prepared by an independent actuary as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences.

### ***Actuarial Assumptions***

The significant assumptions underlying the actuarial computations are as follows:

Actuarial cost method .....	The Unit Credit Cost Method
Discount rate .....	5.50% for 2024 and 2023
Mortality basis .....	Pri-2012 for 2024 and 2023
Average retirement age .....	61 years for 2024 and 2023

If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

### ***Contributions***

The Plan is noncontributory for Participants. The Company's funding policy is to make annual contributions to the Plan in an amount between the minimum funding requirements of the Pension Protection Act of 2006 and the maximum tax deductible limit. From time to time, the Company may increase its contribution above the minimum if it is appropriate to its tax and cash position and the Plan's funded status. To the extent not prescribed by ERISA, the Internal Revenue Code ("IRC") and regulatory guidance from the U.S. Treasury and the Internal Revenue Service ("IRS"), the actuarial assumptions and methods employed in the development of the contribution amounts are selected by the Plan sponsor. ERISA minimum funding requirements for 2024 and 2023 have been met.

## **Risks and Uncertainties**

The Plan invests in various investment securities. These investments are subject to market risks and are influenced by such factors as investment objectives, stock markets, interest rates, economic conditions and world affairs. Due to the level of market risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks, in the near term, could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and Participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

## **Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes in accumulated plan benefits, the disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

## **Administrative Expenses**

The Company has the option of paying certain administrative expenses of the Plan, as defined in ERISA, directly or from funds held by the Trustee. During 2024 and 2023, administrative expenses, actuarial, monitoring and management fees, Pension Benefit Guaranty Corporation ("PBGC") premiums as well as investment and professional fees were paid by the Plan.

## **Benefit Payments**

Benefit payments to Participants are recorded upon distribution.

## **3. Fair Value**

The Company's defined benefit plan assets are measured at fair value on a recurring basis and include the following items:

*Cash and Cash Equivalents:* Foreign and domestic currencies as well as short-term securities are valued at cost plus accrued interest, which approximates fair value.

*Equity securities, treasuries and corporate debt:* Valued at the closing price reported on the active market in which the individual securities are traded. Automated quotes are provided by multiple pricing services and validated by the Plan custodian. These securities are traded on exchanges as well as in the over-the-counter market.

*Mortgage-backed securities:* Fair value is estimated based on valuations obtained from third-party pricing services for identical or comparable assets. Mortgage-backed securities are traded in the over-the-counter broker/dealer market.

*Common/Collective Trusts:* Composed of various funds whose diversified portfolio is comprised of foreign and domestic equities, fixed income securities and short-term investments. These investments are valued using the NAV per share practical expedient and are excluded from classification within the fair value hierarchy. There are currently no redemption restrictions or other significant restrictions preventing the sale of these investments. In the normal course of business, these funds may enter into contracts that contain a variety of representations which provide general indemnifications. The maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the funds that have not yet occurred. However, the risk of loss is expected to be remote.

*Derivatives:* Derivative financial instruments are valued in the market using discounted cash flow techniques. These techniques incorporate Level 1 and Level 2 inputs such as interest rates and foreign currency exchange rates. These market inputs are utilized in the discounted cash flow calculation considering the instrument's term, notional amount, discount rate and credit risk. Significant inputs to the derivative valuation for interest rate swaps, foreign currency forwards and swaps and options are observable in the active markets and are classified as Level 2 in the hierarchy.

*Short-term investment funds:* Composed of various funds whose portfolio is comprised of foreign and domestic currencies as well as short-term securities. These investments are valued using the NAV per share practical expedient and are excluded from

[Table of Contents](#)

classification within the fair value hierarchy. There are currently no redemption restrictions or other significant restrictions preventing the sale of these investments.

The Plan's financial assets and liabilities measured at fair value as of December 31, 2024 are as follows:

## **4. Information Certified by the Trustee**

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules of assets (held at end of year), including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by State Street Bank and Trust Company, the Trustee of the Plan.

## **5. Plan Termination**

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan terminates, all Participants will be 100% vested and the net assets of the Plan will be allocated, as prescribed by ERISA, generally to provide the following benefits in the order indicated:

- (a) Benefits for each vested Participant, spouse or beneficiary attributable to the Participant's contributions less benefits already paid.
- (b) Pension benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of payments under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- (c) Other vested benefits insured by the PBGC, a U.S. governmental agency, up to the applicable limitations (discussed below).
- (d) Other vested benefits not insured by the PBGC.
- (e) Any other Plan benefits.

## [Table of Contents](#)

Under a distressed termination, as defined by the PBGC, certain benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, excluding improvements in vested benefits made within five years of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2024, the ceiling, which is adjusted periodically, was \$21,608 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 75 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants, or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide Participants' benefits. Whether a particular Participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

## **6. Tax Status**

The Plan obtained its latest determination letter on August 28, 2014 in which the IRS stated that the Plan, as designed, was in compliance with the applicable requirements of IRC section 401. In the opinion of the Plan Administrator, the Plan, including amendments, and its underlying trust have operated within the terms of the Plan and remain qualified under the applicable provisions of IRC section 401.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

## **7. Related Party and Parties-in-interest**

Included in Administrative expenses in the statements of changes in net assets available for benefits are two related party transactions:

	<b>Year Ended December 31,</b>	
	<b>2024</b>	<b>2023</b>
	<b>(In \$ thousands)</b>	
Qualifying party-in-interest		
Compensation expense incurred <sup>(1)</sup> .....	492,749	493,980
Exempt party-in-interest <sup>(2)</sup>		
Trustee expense incurred .....	584,711	548,434
Amounts due to the Trustee <sup>(3)</sup> .....	164,115	127,280

<sup>(1)</sup> The Plan pays a portion of the compensation of employees of the Company who oversee the Plan's assets, and these transactions qualify as party-in-interest transactions. Three employees oversaw the Plan's assets for the years ended December 31, 2024 and 2023, respectively.

<sup>(2)</sup> The Plan has certain Plan assets held in a short-term investment fund managed by the Trustee as well as certain assets invested in the Trustee's corporate debt. These transactions qualify as exempt party-in-interest transactions.

<sup>(3)</sup> Included in Administrative expenses payable in the accompanying statements of net assets available for benefits.

## **8. Subsequent Events**

Subsequent events have been evaluated through the date of issuance, September 19, 2025. During this period, there have been no material events that would require recognition in the financial statements or disclosure to the financial statements.

## Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions		
<b>Interest rate basis</b>		
• Applicable month	August 2023 Rates Published September 2023	
• Interest rate basis	3-Segment rates	
<b>Interest rates</b>	<b>Reflecting Stabilization</b>	<b>Not Reflecting Stabilization</b>
• First segment rate	4.75%	3.62%
• Second segment rate	4.87%	4.46%
• Third segment rate	5.59%	4.52%
• Effective interest rate	5.02%	4.39%
<b>Annual rates of increase</b>		
• Compensation:	Not applicable, all benefits frozen	
• Interest Crediting Rate	4.28% in 2024, 4.12% in 2025 and beyond	
<b>Administrative expenses</b>	\$4,800,000	

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

## Demographic Assumptions

**Inclusion date** The valuation date coincident with or next following the date on which the employee is hired. As of December 31, 2015, there will be no new entrants as all plans are frozen.

**New or rehired employees** It was assumed there will be no new or rehired employees.

## Mortality

- **Healthy** Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
- **Disabled** Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.
- **Lump sum conversion** The prescribed mortality assumption under section 417(e) of the Internal Revenue code for the current plan year.

## Termination

**Retirement** For active participants - rates varying by age, average age 61.  
For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year	
Age	Rate
55	8%
62	30%
65	40%

For Long-term disableds - age 62.  
For deferred inactives – earlier of age 62 or age first eligible for unreduced benefits.

**Benefit commencement date:**

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55.
- Deferred vested benefit The later of age 62 or termination of employment.  
CARPP deferred vested participants with cash balance benefits: 60% defer commencement of the cash balance to age 62 and 40% commence the cash balance immediately.
- Disability benefit Upon disablement.
- Retirement benefit Upon termination of employment.

<b>Loads</b>	Liability for benefits for death between termination or disability and commencement are approximated by a 2% load on the liability for termination and disability benefits.
<b>At-risk assumptions</b>	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.
<b>Timing of benefit payments</b>	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

<b>Methods</b>	
<b>Valuation date</b>	First day of plan year.
<b>Funding target</b>	Present value of accrued benefits as required by regulations under IRC §430.
<b>Target normal cost</b>	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
<b>Decrement Timing</b>	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

<b>Actuarial value of assets for determining minimum required contributions</b>	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.50% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).  The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
<b>Benefits not valued</b>	All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

## Sources of Data and Other Information

The plan sponsor, through its third-party administrator, WTW, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

In consultation with the plan sponsor, the following assumptions were made for missing or inconsistent data elements:

Data Element	Assumption
▪ <b>Missing spouse date of birth</b>	Male participants are assumed to be 3 years older than their spouses and female participants are assumed to be 3 years younger than their spouses.
▪ <b>Missing spouse gender</b>	Male participants are assumed to have female spouses and female participants are assumed to have male spouses.

- **Missing benefit information** Missing benefits were estimated based on information provided in the prior valuation and/or the current valuation extract.
- **Missing vesting or credited service** Missing service amounts were assumed to be equal to the amount from the prior valuation.
- **Missing form of payment** Missing forms of payment were assumed to be the same as the prior valuation.

## Assumptions Rationale - Significant Economic Assumptions

<b>Discount rate</b>	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
<b>Cash Balance Interest crediting rate</b>	The plan credits interest to cash balance accounts using the 30-year Treasury rate. Our long-term estimate of the future 30-year Treasury rate is based on the expected future difference between the high-quality corporate bond rates used to determine the plan's discount rate under ASC 715-30-35 and the cash balance account interest crediting rates. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.
<b>Administrative expenses</b>	As required by regulations, administrative expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

## Assumptions Rationale - Significant Demographic Assumptions

<b>Healthy Mortality</b>	Assumptions used for funding purposes are as prescribed by IRC §430(h).
<b>Disabled Mortality</b>	Assumptions used for funding purposes are as prescribed by IRC §430(h).
<b>Termination</b>	Termination rates were based on a prior experience study, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

<b>Disability</b>	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.
<b>Retirement</b>	Retirement rates were based on a prior experience study, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
<b>Benefit commencement date for deferred benefits:</b>	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
• Deferred vested benefit	Deferred vested participants are assumed to begin benefits at earlier of age 62 or age first eligible for unreduced benefits (or current age if later) because deferred vested early commencement factors are subsidized.  Deferred vested participants with cash balance benefits have an assumed commencement age either immediately or at age 62 based on recent plan experience.
<b>Form of payment</b>	Form of payment assumptions were based on a prior experience study, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

## Prescribed Methods

### Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

## Changes in Assumptions and Methods

<b>Change in assumptions since prior valuation</b>	ERISA PPA:
	<ul style="list-style-type: none"><li>• The segment interest rates used to calculate the funding target were updated to the current valuation date as required by IRC §430.</li><li>• The cash balance interest crediting rate for benefit obligations was changed from 3.13% in 2023 and 4.46% in 2024 and beyond, as of January 1, 2023, to 4.28% in 2024 and 4.12% in 2025 and beyond, as of January 1, 2024.</li><li>• The mortality tables used to calculate the funding target and target normal cost were updated to reflect the latest mortality tables and improvement scale, as required by guidance issued by the IRS under IRC §430. In addition, projection of mortality improvement was changed from using a static projection to a generational projection as required by guidance issued by the IRS under IRC §430.</li></ul>
<b>Change in methods since prior valuation</b>	None.

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## Schedule SB, Part V Statement of Actuarial Assumptions/Methods

### Economic Assumptions

#### Interest rate basis

- Applicable month August 2023 Rates Published September 2023
- Interest rate basis 3-Segment rates

Interest rates	Reflecting Stabilization	Not Reflecting Stabilization
• First segment rate	4.75%	3.62%
• Second segment rate	4.87%	4.46%
• Third segment rate	5.59%	4.52%
• Effective interest rate	5.02%	4.39%

#### Annual rates of increase

- Compensation: Not applicable, all benefits frozen
- Interest Crediting Rate 4.28% in 2024, 4.12% in 2025 and beyond

**Administrative expenses** \$4,800,000

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

## Demographic Assumptions

**Inclusion date** The valuation date coincident with or next following the date on which the employee is hired. As of December 31, 2015, there will be no new entrants as all plans are frozen.

**New or rehired employees** It was assumed there will be no new or rehired employees.

## Mortality

- Healthy Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
- Disabled Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.
- Lump sum conversion The prescribed mortality assumption under section 417(e) of the Internal Revenue code for the current plan year.

## Termination

### Representative Termination Rates

Percentage leaving during the year			
Years of Service - Males			
Attained Age	<1	3	≥ 5
25	12.7%	10.6%	8.5%
40	5.8%	4.9%	3.9%
55	1.8%	1.5%	1.2%

  

Years of Service - Females			
Attained Age	<1	3	≥ 5
25	20.8%	17.4%	13.9%
40	6.7%	5.6%	4.5%
55	2.7%	2.3%	1.8%

**Retirement** For active participants - rates varying by age, average age 61.  
For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year	
Age	Rate
55	8%
62	30%
65	40%

For Long-term disableds - age 62.

For deferred inactives – earlier of age 62 or age first eligible for unreduced benefits.

**Benefit commencement date:**

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55.
- Deferred vested benefit The later of age 62 or termination of employment.  
CARPP deferred vested participants with cash balance benefits: 60% defer commencement of the cash balance to age 62 and 40% commence the cash balance immediately.
- Disability benefit Upon disablement.
- Retirement benefit Upon termination of employment.

Form of payment	Form	% electing single	% electing married
	5 year Certain and Life	33%	5%
	Life only	67%	15%
	50% Joint & Survivor	N/A	40%
	100% Joint & Survivor	N/A	40%

**Percent married** 80% of males; 60% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

**Spouse age** Wife three years younger than husband.

<b>Loads</b>	Liability for benefits for death between termination or disability and commencement are approximated by a 2% load on the liability for termination and disability benefits.
<b>At-risk assumptions</b>	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.
<b>Timing of benefit payments</b>	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

## Methods

<b>Valuation date</b>	First day of plan year.
<b>Funding target</b>	Present value of accrued benefits as required by regulations under IRC §430.
<b>Target normal cost</b>	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
<b>Decrement Timing</b>	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

<b>Actuarial value of assets for determining minimum required contributions</b>	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.50% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).  The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
<b>Benefits not valued</b>	All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

## Sources of Data and Other Information

The plan sponsor, through its third-party administrator, WTW, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

In consultation with the plan sponsor, the following assumptions were made for missing or inconsistent data elements:

Data Element	Assumption
▪ <b>Missing spouse date of birth</b>	Male participants are assumed to be 3 years older than their spouses and female participants are assumed to be 3 years younger than their spouses.
▪ <b>Missing spouse gender</b>	Male participants are assumed to have female spouses and female participants are assumed to have male spouses.

- **Missing benefit information** Missing benefits were estimated based on information provided in the prior valuation and/or the current valuation extract.
- **Missing vesting or credited service** Missing service amounts were assumed to be equal to the amount from the prior valuation.
- **Missing form of payment** Missing forms of payment were assumed to be the same as the prior valuation.

## Assumptions Rationale - Significant Economic Assumptions

<b>Discount rate</b>	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
<b>Cash Balance Interest crediting rate</b>	The plan credits interest to cash balance accounts using the 30-year Treasury rate. Our long-term estimate of the future 30-year Treasury rate is based on the expected future difference between the high-quality corporate bond rates used to determine the plan's discount rate under ASC 715-30-35 and the cash balance account interest crediting rates. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.
<b>Administrative expenses</b>	As required by regulations, administrative expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

## Assumptions Rationale - Significant Demographic Assumptions

<b>Healthy Mortality</b>	Assumptions used for funding purposes are as prescribed by IRC §430(h).
<b>Disabled Mortality</b>	Assumptions used for funding purposes are as prescribed by IRC §430(h).
<b>Termination</b>	Termination rates were based on a prior experience study, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

---

<b>Disability</b>	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.
<b>Retirement</b>	Retirement rates were based on a prior experience study, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
<b>Benefit commencement date for deferred benefits:</b>	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
• Deferred vested benefit	Deferred vested participants are assumed to begin benefits at earlier of age 62 or age first eligible for unreduced benefits (or current age if later) because deferred vested early commencement factors are subsidized.  Deferred vested participants with cash balance benefits have an assumed commencement age either immediately or at age 62 based on recent plan experience.
<b>Form of payment</b>	Form of payment assumptions were based on a prior experience study, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

## Prescribed Methods

<b>Funding methods</b>	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

## Schedule SB, Part V Summary of Plan Provisions

### Plan Provisions - Non-Bargaining Employees (Hired before January 1, 2001) (Document #1)

<b>Effective Date</b>	Original plan July 1, 1947. Plan was restated January 1, 2014, and amended during 2019.
<b>Eligibility</b>	All salaried and non-bargaining hourly employees of Celanese Americas LLC hired before January 1, 2001. Employees acquired as a result of the National Starch acquisition on February 5, 2005 with an original hire date before January 1, 2001.  Plan benefits were frozen as of December 31, 2013.
<b>Normal Retirement Age</b>	65
<b>Pension Benefits</b>	The greater of (a) or (b), but in no event less than (c), (d) or (e).
<b>Final pay formula</b>	(a) For each year of credited service, 1.33% of final average earnings. Maximum benefit equals 90% of participant's last 12 months' earnings less the primary Social Security benefit.
<b>Final pay alternative formula</b>	(b) For each year of credited service, 1.67% of final average earnings less 1/70 of participant's primary Social Security benefit for each year of credited service not in excess of 35 years.  Maximum benefit as in (a) above.  (c) For former AHC employees, the accrued benefit under the prior AHC plan formula based on service to date of termination and base pay as of December 31, 1987. (d) For former VCI employees, the accrued benefit as of April 1, 1988 earned under the prior VCI plan formula. (e) For former VCI Union employees, the accrued benefit as of December 31, 1991 earned under the prior VCI Union plan formula.  For former Air Products and Chemicals, Inc. employees who were vested at the date of acquisition, the pension benefit is offset by the Air Products frozen accrued benefit as of the acquisition date, payable at early retirement age.  For National Starch employees, the pension benefit is offset by the National Starch frozen accrued benefit as of the acquisition date and by any applicable frozen benefit under the Celanese Americas Pension Plan for Meredosia Union Employees as of the acquisition date.

## Vested Benefits

- Eligibility                        Five years of vested service.
- Benefits                         Benefits under pension benefits above\*, credited to date of termination and payable at age 65, or at early retirement benefits below.  
Those who retire after meeting eligibility for unreduced benefits will receive the cumulative benefit amount that would have been paid had they retired when first eligible for unreduced benefits.

**Disability Benefits**                        A participant who becomes totally and permanently disabled after five years of vesting service shall be a Disabled Accruing Participant.

## Employee Contributions

- Amount                         None after December 31, 1968 for prior CRIP, August 31, 1972 for former AHC and June 30, 1987 for former VCI employees.

**Termination benefits**                        If elected, return of employee contributions with interest to date of termination of active employment. Benefits are adjusted to reflect receipt of employee contributions.

**Death Benefits Before Retirement**                If married and eligible for a vested benefit, the spouse is entitled to a monthly life only pension commencing on the first of the month coincident with or next following the date the deceased participant would have reached age 55 (or date of death, if later). The benefit is equal to 100% of the pension the participant would have received had he retired early on the first day of the month following his date of death and elected a 100% joint and survivor pension.

## Early Retirement

- Eligibility                        Age 55 for participants hired by Celanese Corporation on or before March 1, 1985; for all other participants, the later of age 55 and five years of vesting service.

---

\* The primary Social Security benefit used is the benefit payable at age 62 and is calculated by assuming zero future earnings.

- Benefits Benefits as calculated under pension benefits above\*\*, with reductions as follows:

Age and Vesting (or Credited)	Service at Retirement	Reduction
At least age 60 and 15 years of vesting or credited service		None
Age plus years of vesting or credited service equals 85 or more and service equals 30 years or more		None

Otherwise use the smaller of (i), (ii) or (iii) below:

- (i) 4% for each year that retirement precedes the date the participant would have become age 60 with 15 years of service.
- (ii) 4% times the difference between 85 and the sum of age plus service, only if service is greater than or equal to 30 years.
- (iii) 4% times the difference between 65 and current age.

For former Air Products and Chemicals, Inc. employees, the frozen offset's reductions are as follows:

Age and Service	Reduction
At least age 62 and 5 years of service	None
Age plus years of vesting or credited service equals 80 or more	None

Otherwise, 3% for each year that retirement precedes age 62 if the participant was eligible for retirement as of September 30, 2000. If the participant was not retirement eligible as of that date, then a 6% reduction factor is used for each year payment precedes age 65.

---

\*\* The primary Social Security benefit used is the benefit payable at the later of retirement age or age 62 and is calculated assuming zero future earnings. The test for the 90% maximum benefit is made before the application of any early retirement reduction.

## Schedule SB, Part V Summary of Plan Provisions

### Plan Provisions - Non-Bargaining Employees (Hired before January 1, 2001) (Document #1)

<b>Effective Date</b>	Original plan July 1, 1947. Plan was restated January 1, 2014, and amended during 2019.
<b>Eligibility</b>	All salaried and non-bargaining hourly employees of Celanese Americas LLC hired before January 1, 2001. Employees acquired as a result of the National Starch acquisition on February 5, 2005 with an original hire date before January 1, 2001.  Plan benefits were frozen as of December 31, 2013.
<b>Normal Retirement Age</b>	65
<b>Pension Benefits</b>	The greater of (a) or (b), but in no event less than (c), (d) or (e).
<b>Final pay formula</b>	(a) For each year of credited service, 1.33% of final average earnings. Maximum benefit equals 90% of participant's last 12 months' earnings less the primary Social Security benefit.
<b>Final pay alternative formula</b>	(b) For each year of credited service, 1.67% of final average earnings less 1/70 of participant's primary Social Security benefit for each year of credited service not in excess of 35 years.  Maximum benefit as in (a) above.  (c) For former AHC employees, the accrued benefit under the prior AHC plan formula based on service to date of termination and base pay as of December 31, 1987. (d) For former VCI employees, the accrued benefit as of April 1, 1988 earned under the prior VCI plan formula. (e) For former VCI Union employees, the accrued benefit as of December 31, 1991 earned under the prior VCI Union plan formula.  For former Air Products and Chemicals, Inc. employees who were vested at the date of acquisition, the pension benefit is offset by the Air Products frozen accrued benefit as of the acquisition date, payable at early retirement age.  For National Starch employees, the pension benefit is offset by the National Starch frozen accrued benefit as of the acquisition date and by any applicable frozen benefit under the Celanese Americas Pension Plan for Meredosia Union Employees as of the acquisition date.

## Vested Benefits

- Eligibility Five years of vested service.
- Benefits Benefits under pension benefits above\*, credited to date of termination and payable at age 65, or at early retirement benefits below.  
Those who retire after meeting eligibility for unreduced benefits will receive the cumulative benefit amount that would have been paid had they retired when first eligible for unreduced benefits.

## Disability Benefits

A participant who becomes totally and permanently disabled after five years of vesting service shall be a Disabled Accruing Participant.

## Employee Contributions

- Amount None after December 31, 1968 for prior CRIP, August 31, 1972 for former AHC and June 30, 1987 for former VCI employees.

## Termination benefits

If elected, return of employee contributions with interest to date of termination of active employment. Benefits are adjusted to reflect receipt of employee contributions.

## Death Benefits Before Retirement

If married and eligible for a vested benefit, the spouse is entitled to a monthly life only pension commencing on the first of the month coincident with or next following the date the deceased participant would have reached age 55 (or date of death, if later). The benefit is equal to 100% of the pension the participant would have received had he retired early on the first day of the month following his date of death and elected a 100% joint and survivor pension.

## Early Retirement

- Eligibility Age 55 for participants hired by Celanese Corporation on or before March 1, 1985; for all other participants, the later of age 55 and five years of vesting service.

---

\* The primary Social Security benefit used is the benefit payable at age 62 and is calculated by assuming zero future earnings.

- Benefits      Benefits as calculated under pension benefits above\*\*, with reductions as follows:

Age and Vesting (or Credited) Service at Retirement	Reduction
At least age 60 and 15 years of vesting or credited service	None
Age plus years of vesting or credited service equals 85 or more and service equals 30 years or more	None

Otherwise use the smaller of (i), (ii) or (iii) below:

- (i) 4% for each year that retirement precedes the date the participant would have become age 60 with 15 years of service.
- (ii) 4% times the difference between 85 and the sum of age plus service, only if service is greater than or equal to 30 years.
- (iii) 4% times the difference between 65 and current age.

For former Air Products and Chemicals, Inc. employees, the frozen offset's reductions are as follows:

Age and Service	Reduction
At least age 62 and 5 years of service	None
Age plus years of vesting or credited service equals 80 or more	None

Otherwise, 3% for each year that retirement precedes age 62 if the participant was eligible for retirement as of September 30, 2000. If the participant was not retirement eligible as of that date, then a 6% reduction factor is used for each year payment precedes age 65.

---

\*\* The primary Social Security benefit used is the benefit payable at the later of retirement age or age 62 and is calculated assuming zero future earnings. The test for the 90% maximum benefit is made before the application of any early retirement reduction.
