## Independent Auditors' Report

To the Plan Participants and Plan Administrator  
General Mills Pension Plan I:

### *Opinion*

We have audited the financial statements of General Mills Pension Plan I (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and December 31, 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and December 31, 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with U.S. generally accepted accounting principles.

### *Basis for Opinion*

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### *Auditors' Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not

a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### *Supplemental Schedule Required by ERISA*

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## **GENERAL MILLS PENSION PLAN I**

### **Notes to Financial Statements**

**December 31, 2024 and 2023**

**(1) Description of the Plan**

**(a) General**

The following brief description of the General Mills Pension Plan I (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

The Plan was established June 1, 2018. The Plan was created for a transfer of certain assets and liabilities from the General Mills Pension Plan. The Plan provides for normal retirement, early retirement, disability retirement (in certain benefit structures), and deferred vested retirement benefits.

The Plan generally invests pension assets across pooled funds and accounts, maintained in two trusts: the General Mills Investment Trust (“Investment Trust”) and the General Mills Group Trust (“Group Trust”) (collectively, the “Master Trusts”). The Investment Trust invests primarily in domestic and international equities. The Group Trust invests primarily in fixed income, private equities, real estate, natural resource related investments, and futures positions.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is a noncontributory, defined benefit pension plan sponsored by General Mills, Inc. (the “Company”). The Plan provides for the payment of monthly benefits to participants upon retirement. As a result of the merger of a number of separate defined benefit plans into the General Mills Pension Plan before the establishment of this Plan, there are distinct benefit structures maintained under the Plan, which generally duplicate the eligibility and benefit formulas in effect prior to the merger. The separate benefit structures are as follows: Retirement Income Plan (“RIP”), Multiple Group, Yoplait/Colombo, Yoplait Union, Vroman’s Foods, Inc., Pillsbury Retirement Plan, Pillsbury General Retirement Plan for Hourly Employees (“General Hourly”), and General Mills Cincinnati Plant Pension Plan (the “Cincinnati Plan”). Effective December 31, 2018, the General Mills Hourly Pension Plan was merged into the General Mills Pension Plan I for administrative purposes but retains its own separate structure.

**(b) Trustee and Administration of the Plan**

The trustee and custodian of the Plan and the Master Trusts is Bank of New York Mellon (“BNY Mellon Trust” or “Trustee”). Investment managers each manage a portion of the Master Trusts and make investment decisions for the assets of such fund for which they are responsible within specific guidelines established by the Benefit Finance Committee of General Mills (“Benefit Finance Committee”).

The named administrative fiduciary for the Plan is the Company’s Vice President, Total Rewards. The Benefit Finance Committee is the named financial fiduciary for the Plan.

**(c) Eligibility**

Certain participants who are already receiving pension payments, or have a vested benefit they are entitled to, previously earned under the General Mills Pension Plan, who met certain work location and earnable compensation requirements are eligible to participate in the Plan. The determination date for Plan eligibility was January 1, 2018.

## **GENERAL MILLS PENSION PLAN I**

### **Notes to Financial Statements**

**December 31, 2024 and 2023**

#### **(d) *Funding Policy***

Company contributions, which meet the funding requirements of ERISA, are made to the Plan as stated in the Plan document. The contributions are determined as of the beginning of the plan year, by an independent enrolled actuary and are equal to the sum of the target normal cost for the plan year and the shortfall amortization charged for the plan year, less any credit for excess assets for the plan year (Note 9).

As required and/or permitted, the Company makes cash contributions to the Plan sufficient to provide the Plan with assets with which to pay pension benefits to plan participants. The Company made no contributions for the years ended December 31, 2024 and 2023.

#### **(e) *Unallocated Insurance Contracts***

Separate annuity contracts exist for some plan participants to cover benefit payments. The assets are held at MetLife Insurance Company ("MetLife") and AXA Equitable Life Insurance Company ("AXA"). The annuity payments are made by MetLife and AXA.

No contributions are required from the Plan to the annuity contracts annually. Contributions of \$15,000 and \$15,000 were made for the years ending December 31, 2024 and 2023, respectively. Disbursements made by MetLife were \$18,479 and \$21,961 for the years ended December 31, 2024 and 2023, respectively. Disbursements made by AXA were \$11,873 and \$13,028 for the years ended December 31, 2024 and 2023, respectively.

#### **(f) *Vesting***

Participants are fully vested in their accrued benefits under the Plan after the earlier of five years of Company service or attainment of normal retirement age. If employees terminate before becoming vested, they forfeit the right to receive any portion of their accrued plan benefits. Forfeitures are applied as a reduction of actuarial liabilities of the Plan.

#### **(g) *Transfers In - Purchases***

Salaried and Non-Union participants covered under the RIP structure who leave the Company after reaching Rule of 70 or when they are eligible to retire, are able to roll over funds directly from their General Mills 401(k) plan account into the Plan in order to "purchase" additional monthly benefits. Rule of 70 under the Plan means that the employee is under age 55 at termination, and their sum of age plus service at termination exceeds 70. This provision only applies to employees hired before January 1, 2005. Total purchases were \$1,111,775 and \$75,000 for the years ended December 31, 2024 and 2023, respectively.

#### **(h) *Benefit Payments***

Benefit amounts are determined as follows:

- Participants covered under the RIP structure, which includes the Pillsbury Retirement Plan, have their benefit amounts determined by a benefit formula that considers both earnings and length of service. Full benefits under the formula are based upon the completion of 30 or more years of benefit service. For benefit service less than 30 years, the benefit amount is reduced proportionately.
- Participants covered under the Multiple Group, Yoplait/Colombo, Yoplait Union, Vroman's Foods, Inc., and General Hourly structures have their benefit amounts determined by a benefit

## **GENERAL MILLS PENSION PLAN I**

### **Notes to Financial Statements**

**December 31, 2024 and 2023**

formula that is based upon a dollar amount (varies by location) multiplied by the number of years of benefit service that a participant has accrued.

- Participants covered under the Cincinnati Plan have their benefit amounts determined using the greater of four formulas that consider earnings or a dollar amount multiplier, and their length of service. Minimum benefit levels are based on length of service.

The Plan has provisions for the payment of early retirement benefits and benefits to vested terminated participants. Disability retirement provisions are included in all but the RIP and the Pillsbury Retirement Plan benefit structures.

For all plans, death benefits are payable to the spouse of a participant. If the participant was not already receiving benefits, upon his or her death, the spouse will receive a 50% survivor annuity. Under the RIP structure, if the participant had met early retirement eligibility at termination or early retirement eligibility or the Rule of 70 and died as an active employee, the spouse will receive a 100% survivor annuity. Payments to the spouse may commence as of the earliest date the participant would have received benefits. If the participant was already receiving benefits, benefits payable to the surviving spouse will be based on the optional form the participant chose when he or she commenced benefits.

**(i) Plan Termination**

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions of the ERISA. Should the Plan be terminated, all affected participants would be 100% vested in benefits earned as of the termination date.

If the termination is the result of the bankruptcy or near bankruptcy of the Company and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the Pension Benefit Guaranty Corporation ("PBGC") will take over the Plan and will pay those benefits that it guarantees. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay the Plan an amount that, together with plan assets, will satisfy all benefits accumulated to the date of the Plan's termination.

**(j) Plan Transfers In**

Effective as of May 31, 2023, assets totaling \$1,242,989,868 were transferred from the General Mills Pension Plan to the Plan. The transfer was made to facilitate targeted investment strategies and provide additional flexibility to evaluate opportunities to reduce funded status volatility.

**(2) Summary of Significant Accounting Policies**

**(a) Basis of Presentation**

The accompanying financial statements have been prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

## GENERAL MILLS PENSION PLAN I

### Notes to Financial Statements

December 31, 2024 and 2023

**(b) Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates and assumptions.

**(c) Risks and Uncertainties**

The Plan provides for investment in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Market risks include global events such as a pandemic or international conflict which could impact the value of the investment funds. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

**(d) Investments**

Purchases and sales of securities are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date. Interest income and administrative expenses are recorded on an accrual basis. The cost of investment securities sold is determined based on the weighted average cost. Deposits to and withdrawals from each fund by participating plans are made at fair value determined as of the end of the business day of the transaction. The investments of the Plan are reported at fair value (Notes 3, 4, and 5).

The Plan accounts for certain changes in net assets as follows:

- Dividends and interest, net realized and unrealized appreciation (depreciation), and administrative expenses of the Master Trusts are recognized by the Plan only as they are reflected in the Plan's proportionate share of net increases (decreases) in the market value of the underlying Master Trust Investments.
- Net realized appreciation (depreciation) is recognized by the Plan upon the sale of investment securities or portions thereof on the basis of weighted average cost to each investment manager's portfolio.

**(e) Payment of Benefits**

Benefits are recorded when paid.

**(f) Expenses**

Administrative expenses, which include, but are not limited to, Trustee fees and investment management fees, are paid out of the Plan's assets.

## **GENERAL MILLS PENSION PLAN I**

### **Notes to Financial Statements**

**December 31, 2024 and 2023**

#### **(g) Subsequent Events**

Subsequent events have been evaluated through August 15, 2025, the date the financial statements were available to be issued. See Note 12 for further information.

#### **(3) Investments**

The Plan owns interests in two Master Trusts, the Investment Trust and the Group Trust. The investments in Master Trusts are valued at fair values based upon the underlying net assets of the trusts, except for the fully benefit responsive investment contracts, which are reported at contract value (Note 6).

The Plan's investments in unallocated insurance contracts are valued at fair value as determined by the insurers.

The Plan's investments in the Master Trusts, which are made up of underlying investments, is established for the investment of assets of the Plan and several other General Mills defined contribution and defined benefit pension plans. Each participating retirement plan has a divided interest in the Investment Trust and each participating retirement plan has a divided interest in the Group Trust.

Transactions and assets of each of the Master Trusts, as well as the Plan investments, are accounted for separately from those of the Plan utilizing the following accounting policies:

- Short-term investments largely consist of collective trust funds valued at net asset value ("NAV") daily by the funds with the ability to redeem daily at that price. For these funds, NAV is considered to be the readily determinable fair value and is supported by the unit prices of actual purchase and sale transactions. Issuances and redemptions of participant units are made on each business day. Participant units are typically purchased and redeemed at a constant NAV of \$1.00 per unit. In the event that a significant disparity develops between the constant NAV and the fair value-based NAV of the fund, the Trustee may determine that continued issuance or redemption at a constant \$1.00 net asset value would create inequitable results for the fund's unit holders. In these circumstances, the Trustee, in its sole discretion and acting on behalf of the fund's unit holders, may direct that units be issued or redeemed at the fair value-based NAV until such time as the disparity between the fair value-based and the constant NAV per unit is deemed to be immaterial. The short-term collective trusts are designed to provide safety of principal, daily liquidity, and a competitive yield by investing in high quality money market instruments.
- U.S. government securities, corporate debt, common and preferred stocks are valued by the Trustee at closing prices on the valuation date. Debt securities are generally traded in the over-the-counter market and are valued at a price that reflects fair value as quoted by dealers in these securities or by an independent pricing service/vendor. These prices are based on observable market data for the same or similar securities, including quoted prices in markets that are not active, or matrix pricing or other similar techniques that use observable market inputs, such as benchmark yields, expected prepayment speeds and volumes, and issuer ratings.
- Certain limited partnership investments are valued by the Trustee at closing prices on the valuation date. Other limited partnerships are valued at NAV based on capital balance statements, as reported by the general partners, which is used as a practical expedient to estimate fair value and are therefore excluded from the fair value table. As there is not a liquid market for some of the limited partnership investments, redemption timing and realization of the estimated value of such investments is dependent upon negotiated transactions between willing sellers and buyers. See Note 8 for unfunded commitment detail.

## **GENERAL MILLS PENSION PLAN I**

### **Notes to Financial Statements**

**December 31, 2024 and 2023**

- Certain common/collective trusts (“CCTs”) are valued at NAV daily by the funds with the ability to trade at that price at least weekly. For these CCTs, NAV is considered to be readily determinable fair value. Other common/collective trusts are valued based on NAV, as reported by the funds, which is used as a practical expedient to estimate fair value and are therefore excluded from the fair value table. These CCTs have a redemption frequency greater than 30 days. There are no unfunded commitments to such funds at December 31, 2024 and 2023.
- Other Investments may include U.S. and non-U.S. government bonds and interest rate swaps. Government bonds are valued by the Trustee at closing prices on the valuation date. Interest rate swaps are valued at a price that reflects fair value as quoted by dealers in these securities or by an independent pricing service/vendor.
- Investments in pooled funds traded on national exchanges are valued by the Trustee at the closing price on the valuation date. If not traded on national exchanges, they are valued based on the NAV as determined by the Trustee.
- Positions in bond futures contracts are marked to market daily based on national exchanges and are valued by the Trustee at unadjusted closing prices on the valuation date. Gains and losses are reflected on a daily basis.
- Option contracts are valued daily based on national exchanges and are valued by the Trustee at closing prices on the valuation date. Gain and losses are recorded on a daily basis.
- Investments in fully benefit-responsive contracts are valued based on the contract value, as is discussed in Note 6.

The Plan’s estimates of fair value for financial assets are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in valuations when available.

The disclosure of fair value estimates in the fair value accounting guidance hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets (“Level 1”) and the lowest priority to unobservable inputs (“Level 3”). The level in the fair value hierarchy within which the fair value measurement is reported is based on the lowest level input that is significant to the measurement in its entirety. The three levels of the hierarchy under FASB Accounting Standards Codification 820, *Fair Value Measurement*, (“ASC 820”) are as follows:

- Level 1 – Unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.
- Level 3 – Valuations based on models where significant inputs are not observable.

The Group Trust's underlying investments are contained within four pooled funds: the Pooled Private Equity Fund, Pooled Fixed Fund, Pooled Credit Fund, and the Pooled Real Asset Fund. Group Trust investments are also contained within fixed income liability hedging accounts: the GMPP Plan Hedging account, the GMPP-I Plan Hedging account; and within internal asset allocation accounts: the GMPP Plan Internal Asset Allocation account and GMPP-I Plan Internal Asset Allocation account. Each fund and account invests in several types of investments to meet a desired benchmark and utilize an investment strategy similar to the overall objective of the Plan.

## **GENERAL MILLS PENSION PLAN I**

### **Notes to Financial Statements**

**December 31, 2024 and 2023**

Within the Group Trust are certain underlying alternative investments which are reported at NAV. Such alternative investments totaled \$1,024,788,866 and \$1,115,014,276 at December 31, 2024 and December 31, 2023, respectively. The NAV reported by the underlying fund approximates the fair value of the alternative investment. However, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the alternative investments. Within the alternative investments, the Group Trust had \$899,963,306 and \$988,256,122 at December 31, 2024 and 2023, respectively, invested in alternative funds that provide minimal liquidity in the form of discretionary withdrawals as set forth in the partnership agreement. Alternative fund investments are generally locked up for several years and the lock-up period may be extended subject to the governing documents of the fund.

The Plan's investment in a fixed income liability hedging account, the GMPP-I Plan Hedging account, is valued at NAV as determined by the Trustee and can be transacted on a daily basis. The GMPP-I Plan Hedging account had investments in Futures, U.S. Government Securities, and Short Term Investments of \$517,144,822 and \$691,064,518 at December 31, 2024 and 2023, respectively. The GMPP-I Plan Hedging account had no underlying investments in alternative investment funds at December 31, 2024 or 2023.

The Plan's investment in a Pooled Credit Fund is valued at NAV as determined by the Trustee and can be transacted on a daily basis. The Pooled Credit Fund account and its prior year equivalent had investments in Corporate Debt Instruments, Other Investments, U.S. Government Securities, Short Term Investments, Preferred Stock and Futures of \$1,412,170,359 and \$1,365,761,823 at December 31, 2024 and 2023, respectively. The Pooled Credit Fund had no underlying investments in alternative investment funds at December 31, 2024 or 2023.

The Plan's investment in an internal asset allocation account, the GMPP-I Plan Internal Asset Allocation account, is valued at NAV as determined by the Trustee and can be transacted on a daily basis. The GMPP-I Plan Internal Asset Allocation account had investments in Futures and Short Term Investments of \$1,725,014 and \$7,105,244 at December 31, 2024 and 2023, respectively. The GMPP-I Plan Internal Asset Allocation account had no underlying investments in alternative investment funds at December 31, 2024 or 2023.

Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions do occur in this limited secondary market, they may occur at amounts other than the reported fair value. It is, therefore, reasonably possible that if the Group Trust were to sell these investments in the secondary market, a buyer may require an amount other than the reported fair value, and the difference could be significant.

### Notes to Financial Statements

December 31, 2024 and 2023

#### **(6) Fully Benefit-Responsive Investment Contracts**

The Investment Trust contains investments in synthetic investment contracts that meet the definition of fully benefit-responsive stable value funds issued by insurance companies and other financial institutions. The synthetic investment contracts are with American General Life Insurance Company, Massachusetts Mutual Life Insurance Company, Transamerica Premier Life Insurance Company, Metropolitan Tower Life Insurance Company, and Prudential Insurance Company of America. The accounts are credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses charged by the companies. The contract value of the synthetic investment contracts at December 31, 2024 and 2023 was \$338,114,107 and \$375,668,667, respectively. These contracts meet the fully benefit responsive investment contract criteria and therefore are reported at contract value in the financial statements.

Contract value is the relevant measure for fully benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Investment Trust. Contract value represents contributions made under the contract, plus earnings, less withdrawals, and administrative expenses. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The Investment Trust owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Investment Trust in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Investment Trust. Synthetic investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Investment Trust include wrapper contracts that provide a guarantee that the credit rate will not fall below 0%. Cash flow volatility (e.g., timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between fair value and book value of the underlying assets. Crediting rates are reviewed monthly for resetting.

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, synthetic investment contracts have the risk of default or the lack of liquidity of the underlying portfolio assets.

Synthetic investment contracts generally provide for withdrawals associated with certain events, which are not in the ordinary course of plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events may include all or a portion of the following:

- material amendments to the Investment Trust's structure or administration
- changes to the participating plans' competing investment options including the elimination of equity wash provisions
- complete or partial termination of the Investment Trust, including a merger with another fund
- the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA

## GENERAL MILLS PENSION PLAN I

### Notes to Financial Statements

December 31, 2024 and 2023

- the redemption of all or a portion of the interests in the Investment Trust held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax-qualified defined-contribution plan
- any change in law, regulation, ruling, administrative or judicial position, or accounting requirement applicable to the Investment Trust or participating plans
- the delivery of any communication to plan participants designed to influence a participant not to invest in the Investment Trust

At this time, management does not believe that the occurrence of any such market value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Synthetic investment contracts generally are evergreen contracts that contain termination provisions, allowing the Plan or the contract issuer to terminate with notice, at any time at fair value, and providing for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals \$0. The issuer is obligated to pay the excess contract value when the fair value of the underlying portfolio equals \$0.

In addition, if the Plan defaults in its obligations under the synthetic investment contract (including the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Plan will receive the fair value as of the date of termination.

For the period ended December 31, 2024 and 2023, the Plan does not hold an interest in the fully benefit-responsive stable value funds that are part of the Investment Trust investment portfolio (Note 5).

### (7) Derivatives and Futures Transactions

#### *Futures Transactions and Foreign Exchange Contracts*

In order to gain exposure to or protect itself from changes in the value of equity securities and foreign currencies, the Master Trusts may buy and sell stock and bond index futures contracts. Risks of entering into futures contracts, in general, include the possibility that there may be an illiquid market and that a change in the value of the contract may not correlate with changes in the value of the underlying securities. Upon entering into a futures contract, the Master Trusts are required to deposit as collateral either cash or securities in an amount (initial margin) equal to a certain percentage of the contract value. As the Master Trusts have not surrendered control of these assets, they are presented on the statements of net assets available for benefits as a component of the assets of the Master Trusts. Subsequent payments are made or received by the Master Trusts each day. The payments are equal to the daily changes in the contract value and are recorded as gains and losses as a component of the Plan's interest in the Master Trusts.

The following are futures transactions and foreign exchange contracts held by the Group Trust:

Investments managed by the Group Trust as of December 31, 2024 and 2023 included securities with a fair value of \$1,402,961,476 and \$1,629,651,729, respectively, that were pledged as collateral to cover initial margin requirements on certain foreign exchange contracts. The assets are fair valued on a daily basis, and gains and losses are recorded daily. The notional value of open long contracts was \$1,600,386,253 and \$1,417,776,954 as of December 31, 2024 and 2023, respectively, with a net unrealized loss of \$23,991,228 and net unrealized gain of \$65,274,256 as of December 31, 2024 and 2023, respectively. The notional value

of open short contracts was \$219,534,748 and \$78,859,220 as of December 31, 2024 and 2023, respectively, with a net unrealized gain of \$3,586,664 and net unrealized loss \$7,347,798 as of December 31, 2024 and 2023, respectively. The average market value of the open long contracts during the years ended December 31, 2024 and 2023 was \$1,509,081,603 and \$1,423,721,618 , respectively. The average market value of the open short contracts during the years ended December 31, 2024 and 2023, was \$70,337,764 and \$26,318,949, respectively.

The Group Trust contains foreign exchange contracts. The net valuation, in U.S. dollars, of the contracts totaled \$7 and \$405 as of December 31, 2024 and 2023, respectively. The position of the contracts is valued daily, and gains and losses are recorded daily.

#### **(8) Commitments and Contingencies**

The Group Trust investments include interests in open-end and closed-end funds and portfolios that invest primarily in institutional quality real estate, global infrastructure companies, natural resources, and oil and gas properties, and interests in various limited partnerships that invest primarily in the securities of privately held companies and direct investments in privately held companies. Unfunded commitments to such funds totaled \$229,513,421 and \$266,334,759 at December 31, 2024 and 2023, respectively, of which the Plan's participation was 75.6% and 74.4% at December 31, 2024 and 2023, respectively.

#### **(9) Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died, and (iii) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The Plan's independent enrolled actuary determines the actuarial present value of accumulated plan benefits. The value results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected future payment dates. Reductions are also made for possible death, disability, and other withdrawals.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, there would be no material differences.

Significant actuarial assumptions used in determining the actuarial value of accumulated plan benefits at December 31, 2024 and 2023 were as follows:

- The Plan's discount rate was 5.75% and 5.06% at December 31, 2024 and 2023, respectively.
- Mortality:
  - Healthy: Pri-2012 benefits-weighted mortality rates (Blue Collar adjustments for union employees and White Collar for other employees) with generational mortality improvements using MP 2021 projection scale and current Aon COVID endemic adjustments at December 31, 2024. The foregoing actuarial assumptions are based on the assumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present values of accumulated plan benefits at December 31, 2024 and 2023 were as follows:

	<u>2024</u>	<u>2023</u>
Vested benefits:		
Participants currently receiving payments	\$ 2,366,610,896	\$ 2,454,278,281

### Notes to Financial Statements

December 31, 2024 and 2023

The change in the actuarial present value of accumulated plan benefits for the years ended December 31, 2024 and 2023 were as follows:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated plan benefits at beginning of year	\$ 3,799,629,809	\$ 2,453,092,229

Actuarial present value of accumulated plan benefits at end of year	<u>\$ 3,510,652,162</u>	<u>\$ 3,799,629,809</u>

\* The assumption changes represent an increase in the discount rate from December 31, 2023 to December 31, 2024, as well as changes due to a comprehensive assumption study that updated retirement rates, withdrawal rates, pay increases, vested pension commencement ages, optional forms of payment, pension marital percentages, and spouse age difference.

\*\* There were no plan changes reflected in 2024 and 2023.

\*\*\* Plan transfer reflected in 2023 related to assets and liabilities for a portion of the actives, retirees and terminated vested participants transferred from the General Mills Pension Plan to the Plan during 2023.

### **Notes to Financial Statements**

**December 31, 2024 and 2023**

#### **(10) Federal Income Tax Status**

The Plan obtained its latest determination letter on March 13, 2020 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations prior to 2021.

#### **(11) Parties in Interest**

BNY Mellon Trust is a party in interest with respect to the Plan. BNY Mellon Trust is the plan's trustee. All transactions between the Plan and BNY Mellon Trust are exempt from being considered as prohibited transactions under the ERISA Section 408(b).

AXA is a party in interest with respect to the Plan. All transactions between the Plan and AXA during the reporting period are exempt from being considered as prohibited transactions under ERISA Section 408(b).

The Company is a party in interest with respect to the Plan. The Company invests the assets of the Plan in the Master Trusts. These activities are exempt when considering prohibited transactions under ERISA Section 408(b). In addition, the Plan pays the Company for investment and administrative services provided quarterly. These expenses are allocated to the Plan based on its pro rata share in the respective funds in the Investment Trust. The cost of services provided for the years ended December 31, 2024 and 2023 were \$459,105 and \$492,462, respectively.

Alight Solutions is a party in interest with respect to the Plan. Alight Solutions is the recordkeeper of the Plan. All transactions between the Plan and the recordkeeper during the reporting period are exempt from being considered as prohibited transactions under ERISA Section 408(b).

The Plan also has investment managers that are parties in interest with respect to the Plan. All transactions between the Plan and the investment managers during the reporting period are exempt from being considered as prohibited transactions under ERISA Section 408(b).

KPMG is a party in interest with respect to the Plan. KPMG provides audit services to the Plan. All transactions between the Plan and KPMG during the reporting period are exempt from being considered as prohibited transactions under ERISA Section 408(b).

CBIZ is a party in interest with respect to the Plan. CBIZ provides accounting and financial reporting services to the Plan. All transactions between the Plan and CBIZ during the reporting period are exempt from being considered as prohibited transactions under ERISA Section 408(b).

#### **(12) Subsequent Events**

Effective June 30, 2025, General Mills, Inc. completed the sale of its US Yogurt business to Groupe Lactalis S.A.

During calendar year 2025, General Mills Inc. approved a multi-year global transformation initiative to drive increased productivity by enhancing end-to-end business processes, enabled by targeted organizational actions, including termination of certain employees.

Management is currently evaluating the impact of the above on the Plan's calendar year 2025 financial statements and operations. Neither are expected to have a material effect on the benefits provided to the participants or the financial position of the Plan.

**Schedule SB, Part V – Statement of Actuarial Assumptions/Methods**

**For ERISA Requirements**

Interest Rates for Minimum Funding Purposes	Based on segment rates with no lookback (as of January 2024), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor under ARPA.
1st Segment Rate	4.75%.
2nd Segment Rate	4.87%.
3rd Segment Rate	5.59%.
Salary Increases	
Minimum Funding Target Normal Cost	See Table 1.
Maximum Tax Expected Benefit Increase	See Table 1.
Social Security Wage Base Increases	Future wage indices are based on a national wage increase of 4.00% per year.
Social Security COLA Increases	3.00%.
Optional Payment Form Election Percentage	100% elect the normal form of payment (generally a Single Life Annuity).
Retirement Age	
Active Participants	See Table 2.
Terminated Vested Participants	Age 59 for BCTGM Union. Age 60 for all other groups.
Mortality Rates	
Healthy and Disabled	2024 generational mortality table for annuitants and non-annuitants per section 1.430(h)(3)-1(b).
Withdrawal Rates	See Table 3.
Disability Rates	See Table 4.
Decrement Timing	Middle-of-year decrements, with 100% retirement occurring at beginning of year.
Surviving Spouse Benefit	
All except BCTGM Union	It is assumed that 85% of males and 60% of females

Schedule SB Attachment (Form 5500) –2024 Plan Year  
General Mills Pension Plan - I  
EIN: 41-0274440 PN: 006

	have an eligible spouse, and that males are three years older than their spouses.
BCTGM Union	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	2023 Base pay plus Target Bonus % for employees with Target Bonus opportunity (otherwise Pensionable earnings) rolled forward one year with the salary increase assumption.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the IRC section 401(a)(17) compensation limit of \$345,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.
Expected Return on Assets	A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
2022 Plan Year	5.25%, limited to 5.92%.
2023 Plan Year	6.15%, limited to 5.74%.
Trust Expenses Included in Target Normal Cost	Reflects assumed administrative expenses plus expected PBGC premiums payable for the year.
Actuarial Method	Standard unit credit cost method.
Valuation Date	January 1, 2024.

## **Schedule SB, Part V – Summary of Plan Provisions**

General Mills offers four primary pension formulas for current employees within the General Mills Pension Plan (GMPP) and the General Mills Pension Plan I (GMPP-I). The pension formula for each employee depends on the employee's location and union status.

- Retirement Income Plan (RIP)
- Yoplait Union
- Cincinnati Union
- BCTGM Union

Other legacy pension formulas are covered under the GMPP and GMPP-I plans but are primarily applicable to former employees and not detailed below.

For a complete summary of plan provisions refer to the General Mills Plan Documents, Summary Plan Descriptions, and Summary of Material Modifications.

### **Plan Transfer**

On July 1, 2023, a portion of the assets and liabilities for actives, retirees/beneficiaries and terminated vested participants were transferred from General Mills Pension Plan (GMPP) into the General Mills Pension Plan I (GMPP I). All the determinations were made based on statuses as of January 1, 2023.

### **Plan Merger**

On July 1, 2020, the Retirement Plan of General Mills, Inc, and the Bakery, Confectionary, Tobacco Workers and Grain Millers International Union (BCTGM) was merged into the GMPP plan.

### **Plan Merger**

The assets and liabilities of General Mills Hourly Pension Plan were merged into the GMPP I on January 1, 2019.

### **Plan Spinoff**

On June 1, 2018 a portion of the General Mills Pension Plan was spun-off to create a new plan, General Mills Pension Plan I. This new plan generally includes retirees/beneficiaries in payment status and terminated participants whose benefits have not commenced yet. All the determinations were made based on statuses as of January 1, 2018.
